## Reasons for study exclusion

| Exclusion category  | Study   | Quantity  |
|---|---|-----------|
| <b>Study requested, but not available</b>   | (1) Fick et al._2015  | 1         |
| <b>Single intervention</b>  | (2) Goldberg et al._2014  | 1         |
| <b>Exclusively education programm/measurement</b>   | (3) Cooley et al._2016<br>(4) Palmer et al._2014<br>(5) Pizzacalla et al._2015<br>(6) Tabet et al._2005<br>(7) Van der Steeg et al._2014<br>(8) Wilkerson et al._2014<br>(9) Yevchak et al._2012  | 7         |
| <b>Language</b><br>(Englisch/German not available)  | (10) Bonaventura et al._2007 (Italian language)<br>(11) Chi et al._2015 (Chinese language)<br>(12) Hwang et al._2015 (Korean language)<br>(13) Navarrete et al._2016 (Spanish language)   | 4         |
| <b>Exclusively volunteer-based approaches</b>   | (14) Caplan et al._2007<br>(15) Gorski et al._2017<br>(16) Sandhaus et al._2010<br>(17) Steunenberg et al._2016   | 4         |
| <b>Exclusively family-based approaches</b>  | (18) Martinez et al._2012<br>(19) Paulen et al._2016<br>(20) Rosenbloom-Brunton et al._2010   | 3         |
| <b>Not delirium-specific</b>  | (21) Rubin et al._2006<br>(22) Stenvall et al._2012   | 2         |
| <b>Inappropriate to research question</b>   | (23) Borgardus et al._2003 (long-term-effects)<br>(24) Pretto et al._2009 (workload nurses)<br>(25) Van Velthuijsen et al._2017<br>(Retrospective data collection of provided interventions, not based on a program)<br>(26) Yevchak et al._2017 (qualitatively derived themes)   | 4         |
| <b>Repeated data use of original study</b>  | (27) Pitkälä et al._2008  | 1         |
| <b>External expert team</b><br>Intervention approaches that were not provided by health care professionals of a ward team:<br>consultation, liaison, co-treatment,<br>cross-department cooperation,<br>cross-sectoral cooperation provided by external experts (with or without the combination of voluntary support) | (28) Angel et al._2016<br>(29) Bakker et al._2014<br>(30) Baldwin et al._2004<br>(31) Björkelund et al._2010<br>(32) Booth et al._2019<br>(33) Cole et al._1994<br>(34) Cole et al._2002<br>(35) Deschodt et al._2012<br>(36) Inouye et al._1999<br>(37) Inouye et al._2000<br>(38) Marcantonio et al._2001<br>(39) Mouchoux et al._2011<br>(40) Naughton et al._2005<br>(41) Yoo et al._2014<br>(42) Zaubler et al._2013 | 15        |
| <b>Specialized geriatrician wards/areas</b><br>with unique architecture or surroundings, special fittings, e.g. "delirium room"   | (43) Chong et al._2014<br>(44) Goldberg et al._2013<br>(45) Mudge et al._2012   | 3         |
| <b>Other specialized wards/areas</b><br>(Day clinics, rehabilitation facilities, psychiatric hospital, long-term care, home care, oncology, palliative care, hospice, emergency, intensive care, maternity/child care)  | (46) Balas et al._2014<br>(47) Bergmann et al._2005<br>(48) Ferguson et al._2018 (mixed Setting)<br>(49) Kolanowski et al._2016Ka   | 4         |
| <b>No original studies</b><br>(study report/surveys/summaries)  | (50) Hasemann et al._2010<br>(51) Hasemann et al._2013<br>(52) Menzies et al._2012<br>(53) Inouye et al._1993<br>(54) Inouye et al._2004  | 5         |
| <b>Different target groups</b><br>(e.g. people with cancer)   | (55) Chen et al._2011<br>(56) Chen et al._2017  | 2         |
| <b>Summary</b>  |   | <b>56</b> |
