Data from Andersen et al. The stroke volume (SV) in parentheses are derived from the calculator. NS: normal saline infusion, PAWP: pulmonary arterial wedge pressure, SVI: stroke volume index, PP: pulmonary artery pulse pressure,

	Controls	HFPEF
PAWP (mmHg)		
Baseline	7	14
Exercise	13	32
NS	13	21
PVRI (mmHg/L)		
Baseline	1.8	1.9
Exercise	1.2	1.5
NS	1.2	1.8
SVI (ml)		
Baseline	79 (69)	82 (68)
Exercise	99 (116)	90 (93)
NS	99 (95)	86 (70)
PP (mmHg)		
Baseline	18	21
Exercise	22	31
NS	18	23
