

Supporting information 1. List of anatomical landmarks in the identification task

Anatomical landmark	
Carotid artery	Oval window
Sigmoid sinus	Internal acoustic meatus
Jugular bulb	Lateral semicircular canal (prominence)
Tympanic tegmen/dura lamel	Superior semicircular canal
Sinodural angle	Posterior semicircular canal
Facial nerve (mastoid/vertical)	Vestibulum (utricle)
Facial nerve (tympanic/horizontal)	Umbo
Geniculate ganglion	Corpus of incus
Facial nerve (labyrinthine)	Incudomalleolar joint
Facial nerve (meatal)	Scutum
Cochlea apex	Cochlear aqueduct
Round window	Vestibular aqueduct (saccus)
